

3Design V12.201

Features:

- o Add documentation for Advanced multicopy item.
- o Improve japanese translations.

Bugs:

- o Fix refresh of image database preview when selecting a larger image.
- o Fix "Arrow move" in sketch that was under some circumstances applied twice.
- o Fix curves color display in Filter item.
- o Fix Save as dialog that could sometimes fail when dealing with special folders.
- o Fix new version popup still appearing even though "Never ask me again" was selected.
- o Fix rendering engine driver installation on Windows 11.
- o Fix opening of older 3Design versions when stone stock database was modified in V12.
- o Fix list resizing on Stone color item.
- o Fix 3D view refresh in Stone cluster item.
- o Fix freeze when recomputation was sometimes performed during file loading.
- o Fix image database creation when a whitespace was present in the user's session.
